“ Kathy and I meet John and Drew prior to 1990 when they joined the Show-Me Car Club. Drew and John opened their home to the club to see their cars and just have a good time. Drew was very active in the "Maggie Post" which is our club newsletter. She did the front page and stories while I put the other simple things together. Drew and I hosted two National tours, one leg of a five year tour from the start of the Mississippi River to the Gulf. We had the fourth leg, Cape to Memphis. We also did the Branson tour which was just a couple of week after the tornado hit. This didn't bother Drew, she stated it over now we just find a way to have a week of fun. Over sixty antique cars toured Branson without a problem. We did however miss a couple of attractions and drove around several repair areas. The bottom line was that the tour was a big success. I could go on but the most important thing is that Drew and John were great friends and Kathy & I will miss them.

“ She was lots of fun spent many times in her home doing Easter eggs, and spending the night. We lived a block away from each other so many times we walked to school together snow and all. I think I talked and carried on more than she did. LOL We loved wearing bright green socks and orange ones too. We thought we were cool. So glad I got to be with her as we both enjoyed our visit as it had been so many years that we were out of touch we just hugged each other several times. I will cherish that always. She had come to Florida when her brother passed I think thats why she was here. You were blessed to have her and I was blessed that she was my friend. God Bless and keep in touch.
