“ I will always be thankful for my brother Sa coming to PA to take care of me when I had foot surgery and would have had to go to a facility for three months until I could walk. Without any thought Donna e-mailed me to tell me I would not be going anywhere but home, that Sam was coming to take care of me.

The other amazing thing he did was after seeing a post I put onto Facebook showing one of my friends a necklace I like in remembrance of my brother Rick. Before she could even respond there was a five word comment from Sam that read “It’s on it’s way Sis.” The necklace means everything to me because it was in remembrance of one brother and an unexpected gift from my other

Sam my heart will truly remain broken with you being gone but your will remain always with me. I know we will all be reunited some day. Love always your baby sister.
